

Summer Vacation

Alice is excited for today. It is the first day of summer vacation. Her family is planning to go to the beach.

They are preparing everything they need such as sunglasses, *bathing suits*, and sandals.

At last, when they finished packing up, they started to go on a trip. Her mother realized that they still lack something.

They are going to have a barbeque party so they've decided to *drop by* the convenience store. She *brought* some foods and drinks for the barbeque.

Alice brought something for her skin too. Finally, they *reached* their *destination*.
