

Laziness

Produced by
Teacher Jovel

Anna is a very *lazy* girl. She is very lazy that she couldn't brush her teeth. She wouldn't *care* at all. One day, her tooth *aches* a lot and it feels like she's going to get a *fever*. Her mom took her to the *dentist* and found out that one of her teeth had to be pulled out. It was so painful that she *regreted* of not brushing her teeth everyday. Her laziness to brush her teeth is the main problem. From then on, Anna already realizes how important *hygiene* is.
